

Mohamed Badry

Data Analyst

mohmedbadry3@gmail.com | +20 122 472 6562 | Cairo, Egypt | LinkedIn | GitHub | Portfolio

CAREER SUMMARY

Data Analyst with strong experience in data analytics, reporting, and Artificial Intelligence applications. Skilled in **Python, SQL, data management, and data visualization tools** to transform complex datasets into actionable business insights. Experienced in building and deploying machine learning models, automation workflows, and **end-to-end deployment pipelines using MLOps practices**. Passionate about leveraging AI-driven solutions to optimize operations, improve performance, and support data-driven decision-making and problem-solving for customer needs.

CORE COMPETENCIES

- Data Analytics & Reporting : Excel, Power BI, Tableau, Quicksight, Matplotlib, Seaborn, Plotly
- Data Handling & Processing: Data collection, Data Cleaning, Feature Engineering, Exploratory Data Analysis (EDA)
- Core Concepts: Statistical Analysis, Hypothesis Testing, Data-Driven Decision Making, project management, .
- Databases: MySQL, SQL Server
- Programming Language: Python, SQL, R
- Modeling & Evaluation: Regression, Classification, Cross-Validation, Model Optimization, Data gathering.
- Machine Learning: Scikit-learn, XGBoost, LightGBM, CatBoost, TensorFlow (basic), PyTorch (basic)

WORK EXPERIENCE

Lead, Data Science & Machine Learning Team 09/2023 – 04/2024 | Cairo, Egypt
Cisco Networking Student Club

- Mentored **25+ students** on Python, EDA, and problem-solving, resulting in **production-ready analytical projects**.
- lead a team that improved model accuracy by **30% over baseline solutions** using **data-driven optimization strategies**.
- **Organized and delivered 4+ AI training programs** focused on deployment pipelines and visualization best practices.

EDUCATION

BSc (Bachelor of Science) in Data Science 09/2021 – 06/2025 | Cairo, Egypt
Arab Open University.

AWS Machine Learning Engineer Trainee 11/2024 – 05/2025 | Cairo, Egypt
National Telecommunication Institute (NTI)

- Designed, automated, and deployed **end-to-end ML pipelines** on **AWS SageMaker**, achieving **95%+ model accuracy**.
- Improved model performance by **20%** through **hyperparameter tuning, feature selection, and regularization**.
- Built **interactive Power BI dashboards** to track model performance, operational KPIs, and trends, leading to **enhanced monitoring and 15% faster anomaly detection**.

PROJECTS

PathCoder - Career Path Recommender (Graduation Project) 09/2024 – 05/2025

- Built an AI-driven platform predicting developer job roles and skill gaps using **200K+ profiles**. Achieved **92% accuracy** with a Random Forest model and SHAP explainability. a full-stack solution with **Flask, Streamlit, MySQL, Firebase**, and improved ML workflows using **MLflow**.

Job Market Analysis (Wuzzuf Data) 12/2025 – 01/2026

- **Analyzed 50K+ job postings and search interactions** from Wuzzuf to identify talent gaps, seasonal hiring trends, and supply-demand mismatches, translating customer hiring needs into data-driven insights that revealed **up to 30% talent shortages** in **Accounting, Banking, and early-career roles**.

CERTIFICATIONS & COURSE WORK

- AWS Certified Machine Learning - Specialty
- Supervised Machine Learning: Regression and Classification
- Intermediate SQL Server
